

This listing of claims will replace all prior versions, and listing of claims in the application:

Listing of claims:

Claim 1 (currently amended) Infant or follow-on formula comprising a source of proteins, a source of lipids, a source of carbohydrates and a probiotic, wherein at least 40% of the proteins are modified sweet whey proteins comprising ~~no CGMP or~~ reduced CGMP.

Claim 2 (currently amended) Formula according to claim 1 wherein at least 60% of the proteins are modified sweet whey proteins comprising ~~no CGMP or~~ reduced CGMP.

Claim 3 (currently amended) Formula according to claim 1 ~~or 2~~, wherein the probiotic is selected from the group consisting of a Bifidobacteria or and a Lactobacillus.

Claim 4 (original) Formula according to claim 3 wherein the Bifidobacteria longum BB 536.

Claim 5 (original) Formula according to claim 3 wherein the Lactobacillus is Lactobacillus paracasei rhamnosus GG.

Claim 6 (currently amended) Formula according to claim 1 ~~or 2~~ which contains both a Bifidobacterium and a Lactobacillus.

Claim 7 (original) Formula according to claim 6 wherein the Bifidobacteria is Bifidobacterium longum BB 536 and the Lactobacillus is Lactobacillus paracasei rhamnosus GG.

Claim 8 (currently amended) Formula according to ~~any preceding~~ claim 1 wherein the proteins are intact.

Claim 9 (currently amended) Formula according to ~~any of claims~~ claim 1 to 7 wherein the proteins are partially hydrolysed.

Claim 10 (currently amended) Formula according to ~~any preceding~~ claim 1 wherein the proteins are present in a maximum proportion of 2g/100 kcal, ~~preferably 1.85, most preferably between 1.8 and 1.85 g/100 kcal.~~

Claim 11 (currently amended) Formula according to ~~preceding~~ claim 1 wherein the whey proteins with reduced CGMP represent at least 60% of the total proteins, ~~preferably at least 70% of the total proteins.~~

Claim 12 (currently amended) Formula according to ~~any preceding~~ claim 1 further comprising at least one LC-PUFA.

Claim 13 (original) Formula according to claim 12 wherein the LC-PUFA comprises DHA, associated or not with ARA.

Claim 14 (currently amended) Formula according to ~~one of claims~~ claim 1 to ~~13~~ further having a low amount of electrolytes.

Claim 15 (currently amended) Method of promoting physical development of an infant or a young child consisting in fully or partly feeding said infant or child with a formula comprising a source of proteins, a source of lipids, a source of carbohydrates and at least one probiotic, wherein at least 40% of the proteins are whey proteins comprising ~~no CGMP or~~ reduced CGMP.

Claim 16 (currently amended) Method according to claim 15 ~~using~~ comprising the step of administering a formula wherein at least 40% of the proteins are modified sweet whey proteins comprising no CGMP ~~according to any of claims 1 to 14.~~

Claim 17 (currently amended) Method according to claim 15 ~~or claim 16~~ wherein the physical development of the infant or child is characterized by a reduced load on immature organs.

Claim 18 (currently amended) Method of improving gastro-intestinal comfort of an infant or a young child consisting in fully or partly feeding said infant or child with a formula

comprising a source of proteins, a source of lipids, a source of carbohydrates and at least one probiotic, wherein at least 40% of the proteins are whey proteins comprising ~~no CGMP or~~ reduced CGMP.

Claim 19 (currently amended) Method according to claim 18 ~~using~~ comprising the step of administering a formula wherein at least 40% of the proteins are sweet whey proteins comprising no CGMP~~according to any of claims 1 to 14.~~

Claim 20 (currently amended) Method of developing a healthy gut microflora in an infant or a young child comprising the step of ~~consisting in fully or partly~~ feeding said infant or child with a formula comprising a source of proteins, a source of lipids, a source of carbohydrates and at least one probiotic, wherein at least 40% of the proteins are whey proteins comprising ~~no CGMP or~~ reduced CGMP.

Claim 21 (currently amended) Method according to claim 20 ~~using a formula wherein at least 40% of the proteins are modified sweet whey proteins comprising no CGMP~~according to any of claims 1 to 14.

Claim 22 (new) Formula according to claim 1 wherein the proteins are present between 1.8 and 1.85 g/100 kcal.

Claim 23 (new) Formula according to claim 1 wherein the whey proteins with reduced CGMP represent at least 70% of the total proteins.

Claim 24 (new) Formula according to claim 1 wherein the modified sweet proteins comprise no CGMP.

Claim 25 (new) Formula according to claim 2 wherein the modified sweet proteins comprise no CGMP.
